ABOUT ME

Full-stack developer with experience building web applications and backend services. Worked with REST APIs, databases, authentication, and frontend development. Also have hands-on experience in blockchain and smart contract development.

TECHNICAL SKILLS

- Languages: Rust, Solidity, Typescript
 - Frontend: React, Next.js, Tailwind CSS, SCSS
 - Backend: Node.js, NestJS, PostgreSQL, Redis, DrizzleORM, Swagger, REST API
 - Mobile: Tauri 2.0, React Native
 - Developer tools: Git, Docker, Postman, VS Code
-

EXPERIENCE

Smart Contract Developer

- Developed, maintained and tested smart contracts using Solidity
- Wrote unit and integration tests for contracts
- Performed basic security analysis (reentrancy, access control, overflow)
- Worked with Hardhat

Full stack developer

- Developed full-stack web applications using React and Node.js
 - Designed Rest APIs and integrated frontend with backend services
 - Designed PostgreSQL schemas and designed Redis-based caching systems to reduce service load
 - Implemented authentication and role-based access control
-

PROJECTS

Blockchain Engineer

Boosty Labs, 2024

Maintained and tested smart contracts written in Solidity, ensuring their functionality, security and performance using Hardhat, developed JS-based tools and interfaces for seamless interactions with the smart contracts.

Full Stack Developer

Cowchain, September 2025 - January 2026

Developed full-stack web applications using React and NestJS, designing and implementing REST APIs, handling backend business logic, and integrating backend services with frontend applications..
